\$729.00
Incl GST

- Lambs
- 0.5ml (\$0.63 + gst) for lambs for slaughter for 3 to 4 months supplementation
 - 1.0ml (\$1.27 + gst) for ewe replacements for 6 to 8 months supplementation.

Benefits of Pre-Weaning Drenching in Lambs

A 2011 New Zealand Beef and Lamb trial was set up to analyse the benefits of a pre-weaning drench, 3 to 4 weeks prior to weaning from mothers.

The findings were that ...

- A drench pre-weaning improved weaning weight by 1kg.
- Adding the tapeworm active (praziquantel) to the triple drench did improve growth rate at weaning by 25gm per day compared to the standard triple combination drench.
- Dag scores were further reduced with the inclusion of tape drench compared to straight triple drench.

First Hi-Mineral Oral Drench for Lambs

- 10 Day Meat WHP
- Tapeworm protection
