Each purchase also goes in the draw to **WIN 1500 Doses**

Go in the Draw to WIN a set of Victory Knives

\* Valued at \$300

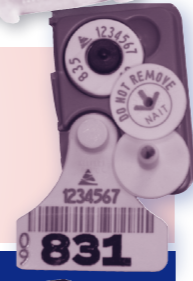

# Allflex

## Official Calf Tags

Newborn calves must be tagged with NAIT-approved RFID tags within 180 days of birth, or prior to their first off-farm movement.

Linking people, property and livestock

## Calf Debudding Service

We offer a gold standard calf debudding service using both sedation and local anaesthetic to minimise calf discomfort and reduce liveweight losses due to stress. While sedated, it provides a great opportunity to check the calf for extra teats, give a 10 in 1 vaccination and NAIT ear tagging.

includes topical anaesthetic

Fee **\$8.35** per calf includes GST

(excludes travel costs – a surcharge applies if fewer than 25 calves are debudding)

## Young Calf Drench Guidance for Sustainable Production

### Calves Under 100KG

- Oral drenching young calves is best practice
- Clear/white combinations should be used up to 100kg liveweight

Don't use triple action drenches that contain Abamectin as these can be toxic to small calves

### Calves Over 100KG

- Coopers Alliance is a triple drenches (white/clear/mectin active ingredients)
- Triple drench technology delays the onset of drench resistance

Triple action drenches are best practice for calves over 100kg

**FREE Delivery Service**  
If you can't get to one of our Veterinary Centres we can deliver. Phone your order before 10am for same day delivery (or after 10am for delivery on the next working day).
