

Feline Vaccination

Cats get the flu too..... A regular veterinary health examination together with a vaccination program can help detect and prevent potentially life threatening diseases. This is a full nose to tail check-up - like an animal "Warrant of Fitness".

FREE
Broadline
TREATMENT
with each cat vaccination in January

Broadline, the complete flea and worm control spot-on treatment for cats.

» SPECIAL OFFER
\$20 OFF

*Excludes 18 kg or larger bags. Limited time only. Cannot be used in conjunction with any other offer

Cotton's Corner

Holidays are all about relaxing right? Nothing better than a good book or a snooze outside soaking up the sunshine. Because of my pale complexion I must be very careful not to get my ears and nose sunburnt. "My humans" have a special sunblock for me called Filta Clear which means I am well protected from getting skin cancer. Human sunblock is too toxic for us animals so if you are sensitive to the sun like me then send "your people" in to your nearest Blue Cross Veterinary Centre for some animal friendly sunblock today.

I am lucky because "my staff" are available 24/7 over the holidays.....I hope "your humans" have you well cared for if they are away.....

.....Cotton

Instead of receiving Christmas presents our amazing staff (with the assistance of Nestle) have donated 300 large tins of Milo to Foodbanks in our area. This is a fantastic gesture from our team that really defines the Christmas Spirit.

Things we can learn from a dog

- Never pass up the opportunity to go for a joy-ride
- Take naps and stretch before rising
- Avoid biting when a simple growl will do
- If what you want lies buried dig until you find it
- Delight in the simple joy of a long walk

Happy 2016
