

CONGRATULATIONS

NEW

Clinical Director of Small Animals

We are very excited to announce the appointment of Abby Robertson as our new Clinical Director of Small Animals for the Veterinary Centre. Abby has nearly 20 years experience in small animal veterinary work and over this time has developed a strong interest in advanced medical cases. Many of these are loved pets which have chronic or life threatening diseases that need on-going treatment and care. Abby has completed years of post-graduate study in a range of small animal disciplines including cardiology, neurology, endocrinology, gastroenterology and emergency medicine, and has advanced skills in ultrasonography – these skills are used daily in her work ups of your pets. Abby's natural leadership, management skills and empathy leave her well-equipped to oversee the small animal team at the Veterinary Centre – so we can continue to provide the best care possible for your feline and canine companions.

INCREDIBLE IN EVERY DETAIL

Cotton's Corner

Brrr ... it sure is getting cold out there!! Fortunately for me, my people here at my Blue Cross Veterinary Centre have just got in the winter range of snugly beds. There is such a selection... furry, fluffy, thick, thin, waterproof, and all sorts of colours. And boy are they cozy!

We also have a range of jackets for all you dogs out there. They will keep you dry and warm when your people take you for a walk.

If you pop into my house, you can quite often see me taking the beds for a "test run", they have my paw-print of approval. Send your human in to take a look!!

Tips for choosing & correctly fitting a dog collar

- The collar should be the correct weight for your dog – bigger dogs can have heavier collars. Soft nylon or leather collars are best for puppies.
- The collar should fit snugly so it won't slip off but is not too tight.

You should be able to fit two fingers between a correctly fitted collar and your dog's neck.

- Regularly check your puppy's collar to ensure it has not become too tight as your puppy grows rapidly.
- Choke chains are not recommended, particularly in young puppies. Instead consider gentler options such as a Halti or Gentle leader.
- ID tags are highly recommended to help identifying a lost or injured pet.

WORMS

WILD BIRDS

Attract Native Birds to your Garden

You can help supplement the bird's food by setting up a feeder in your garden. It can take a while for birds to get used to feeding from it so make sure feeding stations are topped up regularly in winter and early spring when natural food sources are more limited.

Topflite Course Seed Mix

Premium New Zealand-grown seed is high in energy and rich in essential nutrients, providing a boost for wild birds when food is scarce.

Course Seed Mix 10kg **\$44.90** Incl GST

Course Seed Mix 20kg **\$59.90** Incl GST

Energy Cake

An immediate source of energy essential for the survival of Wild Birds during challenging times.

Energy Cake 540g (Berry or Peanut) **\$6.50** Incl GST

Cake Feeder (complete) **\$10.90** Incl GST
