

Unsung Heroes

Abby Robertson
BVSc

Rather than an interesting case, this month I would like to do a bit of a shoutout to some unsung heroes. As a pet owner, your interactions with our clinic are usually with our lovely reception staff and our veterinarians. However, in the background at all our clinics, is an amazing, dedicated team of veterinary nurses. This group of people is both skilled in the work they perform and incredibly compassionate towards all our patients (even the ones that don't love us back all that much). Behind the scenes they are placing catheters, doing x-rays, managing medications, and ensuring that anxious pets have some reassurance and our hospital patients a soft bed and an extra bit of love. We, as veterinarians, absolutely could not do the work that we do without the powerhouse team that is our veterinary nurse colleagues and their work makes a huge difference to the care of all the pets we see at the Veterinary Centre by the Big Blue Cross.

Cotton's Corner

Did you know a female cat can produce 15-20 kittens a year? The world is incredibly overpopulated by stray cats . . . those poor souls have no homes to go to, no beds to sleep in and no humans at their beck-and-call!

My human owners lead the way in responsible pet ownership and make sure that our Tiny Tigers are neutered when they leave here for their new homes. Being neutered also means ovarian and testicular cancers are impossible.

Neutered pets tend to be happier, friendlier and less territorial so please make sure "your people" bring you in to talk to one of my Blue Cross Vets about this routine surgical procedure!
